MAX Linen

60 SECOND FAST STEAMER

Introducing the SteamCare Iron, ready to use in just 60 seconds. With our innovative technology, you no longer have to wait for the steam to be generated. In just 60 seconds, the SteamCare Iron produces a powerful and continuous stream of steam, allowing you to start ironing without delay.

NANO CERAMIC SOLEPLATE

Introducing our revolutionary iron equipped with a Nano Ceramic Soleplate, the first of its kind in the market. This groundbreaking technology is set to transform your ironing experience like never before.

What sets our Nano Ceramic Soleplate apart is its advanced composition and superior performance. The incorporation of nanotechnology into the ceramic coating results in remarkable benefits for your ironing process.

Unmatched Smoothness

The Nano Ceramic Soleplate offers an incredibly smooth surface, allowing it to effortlessly glide over fabrics with minimal friction.

Enhanced Heat Distribution

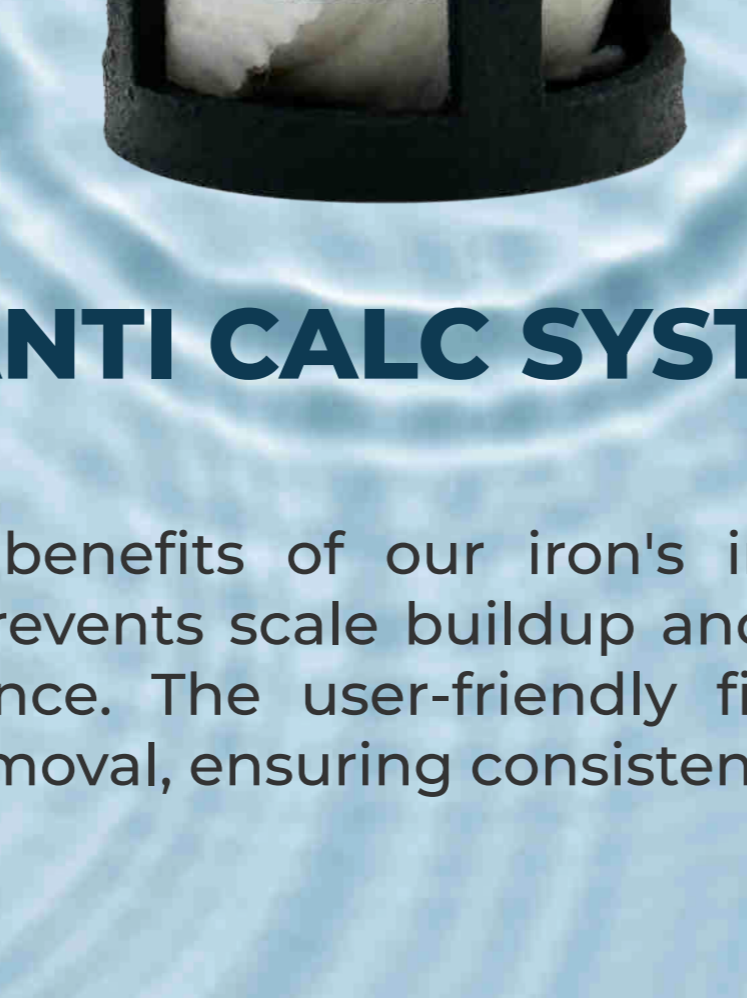

Nano-sized ceramic particles provide consistent heat across the entire soleplate for perfect results on every garment.

Easy to Clean

The ceramic coating makes cleaning quick and hassle-free.

Durability and Longevity

The Nano Ceramic Soleplate is designed for lasting performance, providing high resistance to abrasions and corrosion.

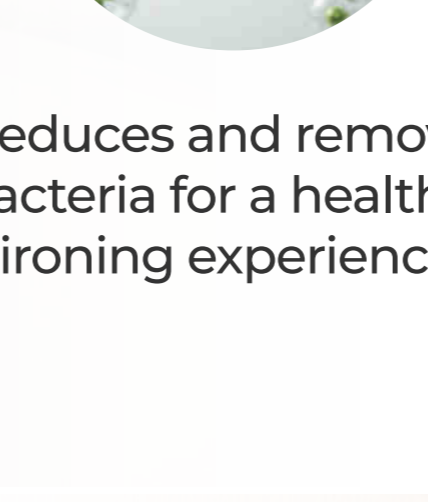

ANTI CALC SYSTEM

Experience the benefits of our iron's integrated Anti Calc system, which prevents scale buildup and maintains superior steam performance. The user-friendly filter allows for easy limescale removal, ensuring consistent ironing results.

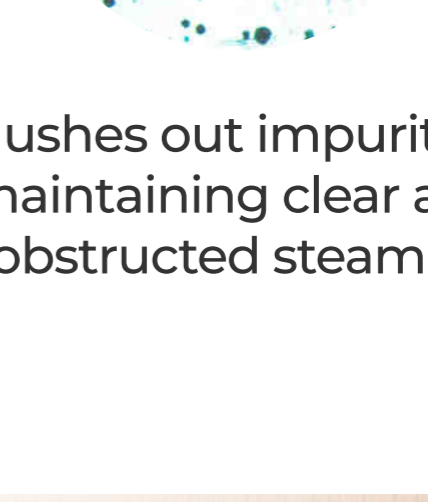

SELF CLEANING ADVANCED TECHNOLOGY

providing better hygiene and health care for your family

Eliminates leftover water, keeping the iron fresh.

Flushes out vapor, maintaining a dry and safe iron.

Clears dust buildup, ensuring optimal performance.

Reduces and removes bacteria for a healthier ironing experience.

Flushes out impurities, maintaining clear and unobstructed steam flow.

The Straight Goods on GoodSense® Steamcare Iron

Fast & Effective
A steam generator iron is the fastest and most effective solution for removing creases and wrinkles from clothes.

Power & Precision
Our iron is suitable for all kinds of fabrics, providing the necessary power and precision for any garment during ironing.

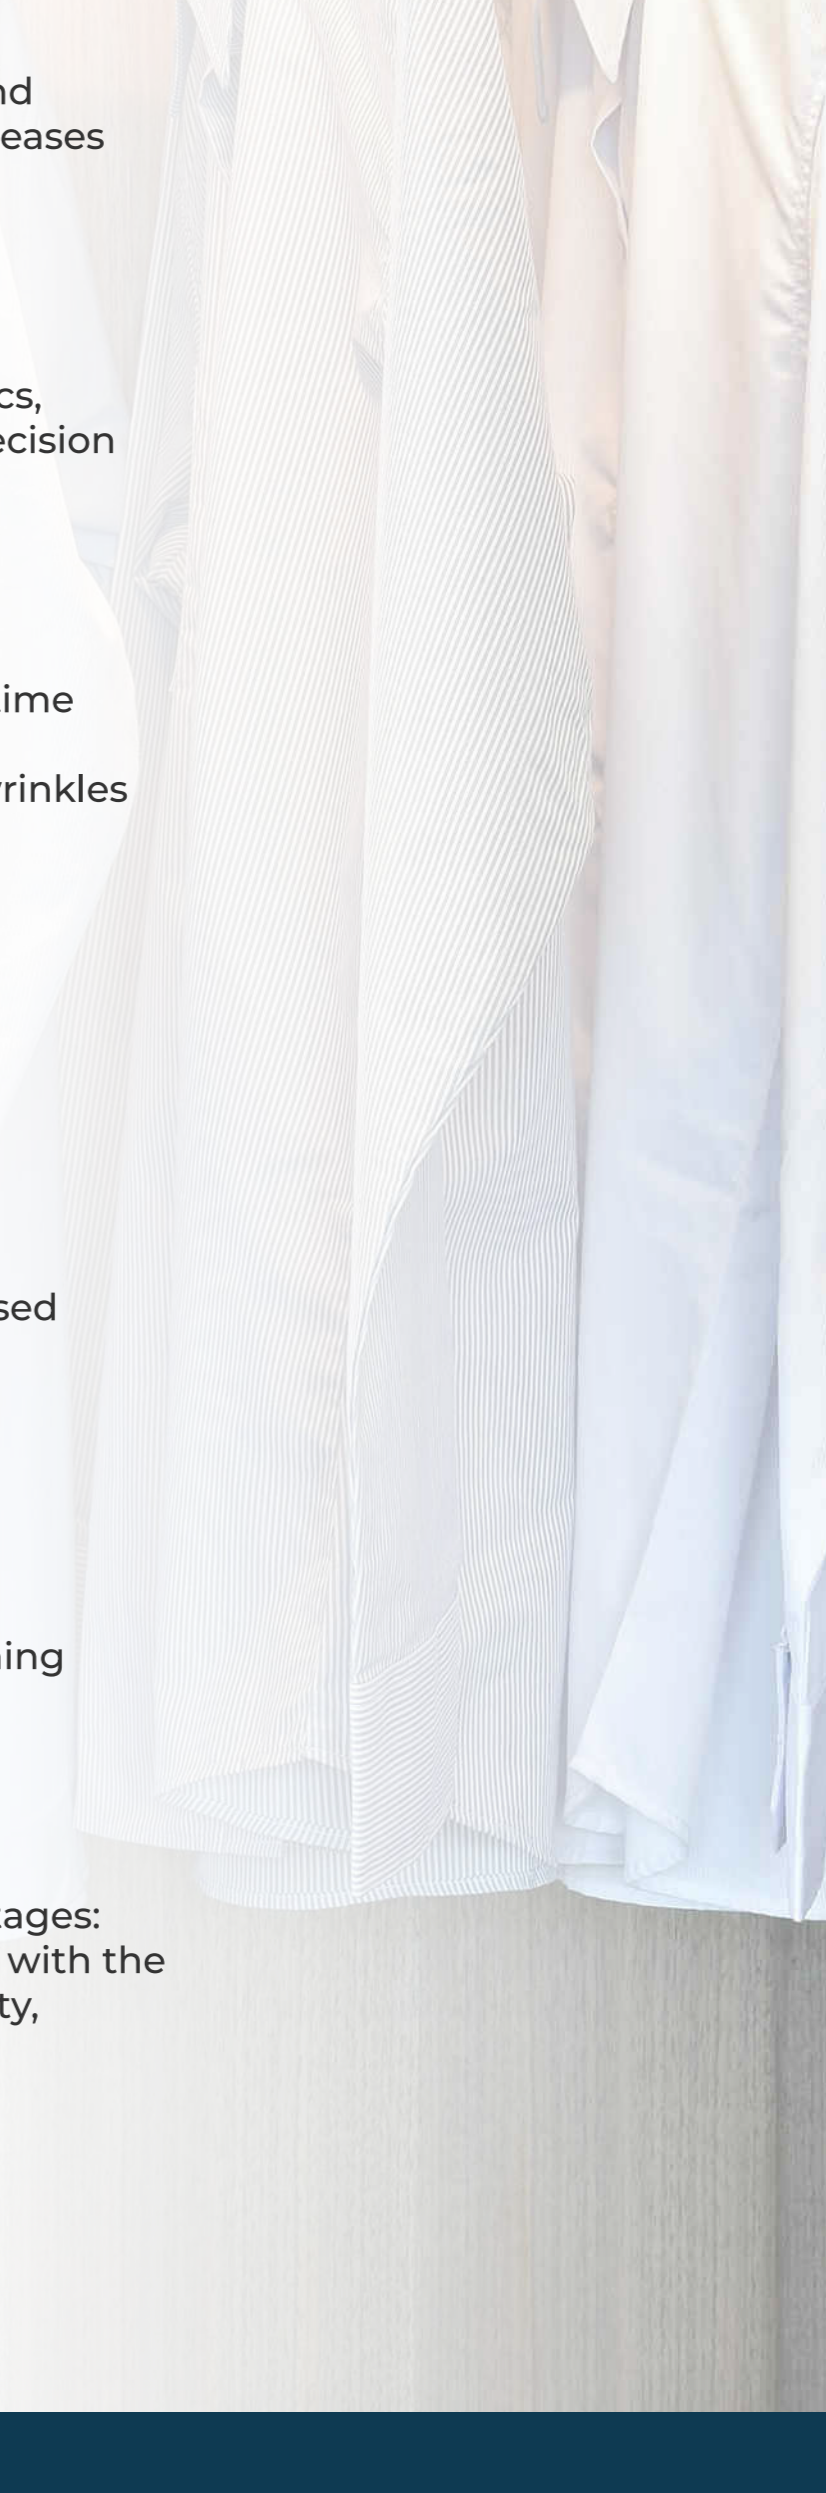

3x Time Efficiency
Penetrates several layers of fabric at a time so you can iron a garment on one side, say with trousers, and have removed wrinkles on the reverse side too.

Anti-Scale & Anti Calcium
Provides protection against calc and professional quality of ironing results.

Anti-Drip & Safety Lock
Come with anti drip technology that used to prevents water stains on the fabric, even ironing at low temperature.

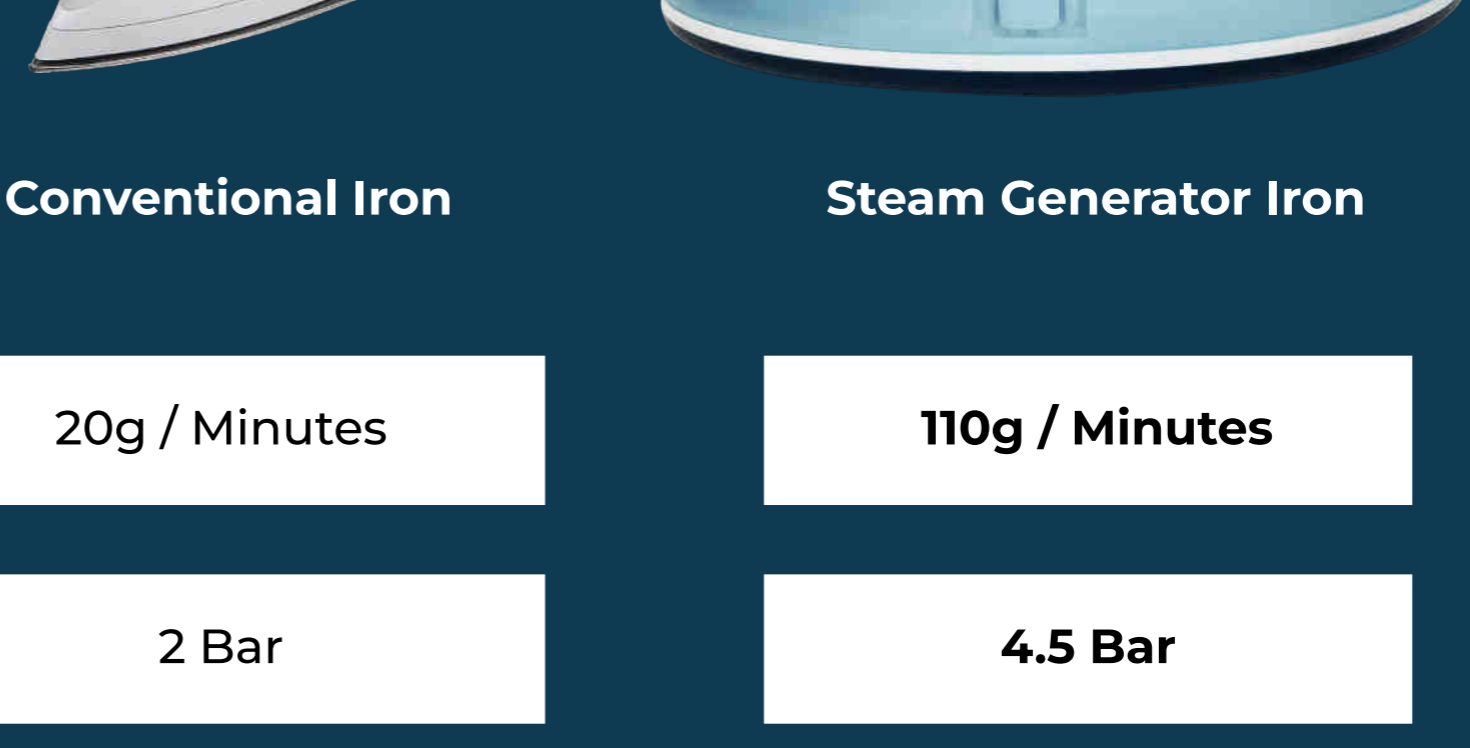

Self-Cleaning Functions
Remove and ease the water and dust particles inside iron. 3x Faster Ironing with a Steam Generator Iron.

Safety Carry Lock
A safety carry lock for two main advantages: Increased safety, as it prevents contact with the hot soleplate, and convenient portability, making it easy to carry around.

DO YOU KNOW? Steam Generator Iron is better than steam iron?

Learn more WHY from below.

Conventional Iron

Steam Generator Iron

Steam Output	20g / Minutes	110g / Minutes
Steam Pressure	2 Bar	4.5 Bar
Vertical Steam	No	Yes
Setting of Steam Temperature	Depend on model	Adjustable
Water Tank	Small	Large
Tank Capacity	300ml	2.0L
Self Cleaning Function	No	Yes

Experience the unparalleled efficiency of our steam generator iron

Allowing you to breeze through your ironing tasks three times faster and with greater ease compared to traditional iron products.

Enjoy the benefits of faster and more efficient ironing, making your ironing sessions quicker and more convenient than ever before.
